

# The Blueprint Roadmap to World Peace

## A Communication of the Intractable Studies Institute

Patrick M. Rael, Director, [IntractableStudiesInstitute.org](http://IntractableStudiesInstitute.org)

World peace is far, distant dream of humanity. A solution in 3 parts:

- 1) **Two Categories of Intelligent Life Forms (bottom left),**
- 2) **The L3 IQ Scale (bottom middle),**
- 3) **The Three Conjectures of World Peace (bottom right),**

it is now easier to chart a path to world peace. Via application of the L3 IQ scale the individual and group-life-forms world actors and governments can be measured for their L3 IQ score. This score will be useful to determine if the individual or group life form is helpful or a hindrance to world peace.

1 - Existing leaders/actors of the world entities (people, govts, corporations,..) are measured to determine their L3 IQ. Any score less than 3 on the L3 IQ scale is the reason for the prevention of world peace as per the three conjectures of world peace.

2 - Prospective world leaders/actors can be measured for their L3 IQ prior to elections or succession with favor for the candidate at L3 on the L3-IQ-Scale, meaning that candidate offers a better chance for world peace.

The United Nations (UN) Security Council (SC) can be adjusted to additionally require its members to have L3 IQ. When a SC member drops below L3 IQ, it exits the S.C. **This means UN SC members are altruistic, rational and tolerant.**

**L3 - Peace Inevitable**

**L2 - Peace Possible**

**L1 - Peace Unlikely**

**L0 - War Inevitable**

**1) Two Categories of Intelligent Life Forms (brief version):**

1. Individual
2. Group

For any N intelligent life forms, there are  $(2^N) - 1$  potential group life forms as combinations of those N.

**2) The L3 IQ Scale (brief version):**

- L1 - Altruistic.**
- L2 - Rational.**
- L3 - Tolerant.**

A rule is Level N (LN) can only be reached when **lower numbered N** is achieved.

**3) The 3 Conjectures of World Peace:**

**1<sup>st</sup>** – When all world leaders/actors are at L2, peace is **possible**. (necessary)

**2<sup>nd</sup>** – When all world leaders/actors are at L3, peace is **INEVITABLE**. (sufficient)

**3<sup>rd</sup>** – World peace is **no longer guaranteed** after there is a decline from L3.
